Arts & Humanities Databases at Lake City Community College

Art Full Text (H.W. Wilson)
Art full text plus abstracts and indexing of an international array of peer-selected publications. It covers Latin American, Canadian, Asian and other non-Western art, new artists, contemporary art, exhibition reviews, and feminist criticism.

Artstor (JSTOR) NEW!
The ARTstor Digital Library is a repository of ~550,000 digital images and related data in the areas of art, architecture, the humanities and social sciences. ARTstor also contains a set of tools to view, present and manage images for research and educational purposes.

Essay & General Literature Index (H.W. Wilson)
This unique resource offers precise access to nearly 65,000 essays contained in some 5,300 anthologies and collections published in the U.S., Canada, and Great Britain. Some 300 single and multi-author collections are indexed annually, plus more than 20 selected annuals and serials. Coverage spans the entire range of the humanities and social sciences, including literary works, art history, drama, and film.

General Reference Center Gold (Gale)
This database contains reference works useful to students doing research in the areas of humanities & social science. *Note: To find this resource, look under the General category on the list of library databases.

Grove Art Online (Grove)
Grove Art Online provides web access to the entire text of The Dictionary of Art (34 volumes, covering all aspects of the visual arts of every civilization from prehistory to the 1990s). Access includes updates of new material & text, and extensive image links.

Grove Music Online (Grove)

Humanities Full Text (H.W. Wilson)
Over 500 English-language periodicals covering literature and language, history, philosophy, archaeology, classical studies, folklore, gender studies, performing arts, history, religion and theology. Indexing generally begins in the early 1980’s and abstracting & full-text in the mid 1990’s.

JSTOR
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. But there is also a small, growing collection in the sciences. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article.
Biography Databases Available at Lake City Community College

**Biography Index** (Wilson)
Biography Index contains biographical articles appearing in more than 3,000 periodicals, plus some 2,000 current books of individual and collective biography published each year, and biographical material in otherwise non-biographical books. Besides biographies and autobiographies, it includes citations to interviews, obituaries, collections of letters, diaries, memoirs, juvenile literature, book reviews, bibliographies and exhibition reviews. People covered range from antiquity to the present & represent all fields and nationalities.

**Biography Resource Center** (Gale)
This database integrates award-winning biographies from Gale Group sources, related full-text articles from hundreds of periodicals, as well as tens of thousands of images and links to hand-picked web sites. Search for people (from many time periods or fields of endeavor) based on name, occupation, nationality, ethnicity, birth/death dates or places, gender, as well as keyword and full text.

*Note: For biographies of famous authors, please refer to these databases listed under the library databases Literature section:

- Literary Reference Center (EBSCO)
- Literature Resource Center (Gale)
Business Databases Available at Lake City Community College

**Business Full-Text (H.W. Wilson)**
Provides fast, convenient access to a multitude of outstanding periodical sources. From The New York Times Business Section and The Wall Street Journal to magazines and scholarly journals. Users will find feature articles, product reviews, interviews, biographical sketches, corporate profiles, obituaries, surveys, book reviews, reports from associations, societies, trade shows & conferences and more.

**Business Source Complete (EBSCO) NEW!**
Business Source Premier provides full text for more than 8,800 serials (1,100 of which are peer-reviewed). This database provides coverage in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. Additional full text, non-journal content includes market research reports, industry reports, country reports, company profiles and SWOT analyses.

**Virtual Reference Library (Gale)**
Contains the electronic version of the Encyclopedia of Small Business by Kevin Hillstrom and Laurie Collier Hillstrom. It contains 600 detailed articles and overviews of all the key information needs of small business owners, including financing, financial planning, business plan creation, market analysis, sales strategy, tax planning, and human resource issues. *Note: To find this database, look under the Reference Shelf category on the list of Library databases.

**General BusinessFile ASAP (Gale)**
Analyzes company performance and activity, industry events and trends, and the latest in management, economics and politics. Search broker research reports, trade publications, newspapers, journals and company directory listings. *Note: see also General Reference Center Gold (Gale) for other business sources.

**Hoovers Premium (Hoovers)**
Hoovers offers in-depth financial information. It provides insight into companies and executives. Allows users to access a comprehensive company database, review key executive profiles, analyze complete industry coverage, build lists based on companies or executives, and view detailed company fact sheets with financials and other important information.

**JSTOR**
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article. JSTOR contains 64 journals in business & 43 for economics.

**Regional Business News (EBSCO)**
Regional Business News provides comprehensive full text for regional business publications (including titles from Crain Communications). This database has full text for more than 50 sources.
Computers & Technology

**Applied Science & Technology Full Text** (H.W. Wilson)
Periodical coverage includes 575 trade and industrial publications, journals issued by professional and technical societies, and specialized subject periodicals, as well as special issues such as buyers' guides, directories, and conference proceedings.

**Computer Database** (Gale)
Offers access to today's most well-read and influential periodicals on the computer, telecommunications and electronics industries.

*Note: For similar topics, see also: Science Complete database (H.W. Wilson)*
Controversial or “Hot-Topic” Issues Databases

*Note: These resources are listed under the ‘News & Current Events’ section of the library databases page.

**CQ Researcher** (CQ Press)
CQ Researcher explores a single controversial topic each week. Issues cover a wide range of social, economic, political and environmental issues. 44 reports are produced each year. Reports include charts, graphs and sidebar articles.

**Issues and Controversies** (Facts on File)
Offers a wealth of current topics research information, including pro/con discussions of hot issues, newspaper editorials, numerical snapshots of key topics, photos & graphics, and selected historical source documents.

**Opposing Viewpoints Resource Center** (Gale)
Opposing Viewpoints provides information on social issues. Students can search for viewpoint articles, contextual topic overviews, government and organizational statistics, court cases, profiles of government agencies and special interest groups, newspaper and magazine articles and more concerning social issues.
Education Databases Available at Lake City Community College

Resources for the Professional Educator

**Education Full-Text** (H.W. Wilson)
Education full-text is a comprehensive collection that covers virtually all aspects of education. Indexing begins in the early 1980’s and abstracting & full-text in the mid 1990’s. Education full-text also covers almost 80 journals not covered by the ERIC database.

**Education Research Complete** (EBSCO)  
Education Research Center is a bibliographic and full text database covering scholarly research and information relating to all areas of education. Topics covered include all levels of education from early childhood to higher education. It covers all educational specialties such as multilingual education, health education and testing. The database also includes areas of curriculum instruction as well as administration, policy, funding and related social issues.

**ERIC** (EBSCO)  
A guide to published and unpublished sources on thousands of educational topics, with information from RIE (Resources in Education) and CIJE (Current Index to Journals in Education). ERIC records now include full-text documents from the ERIC Digest at no extra charge. Includes 1.1+ million records from 1,016 journals and other documents from 1966 to the present. Updated monthly.

**InfoTrac Professional Edition** (Gale)  
A custom selection of more than 300 full-text journals for educators that is updated daily. The Professional Collection offers balanced coverage for any professional educator in the following areas: Arts and humanities, child and adolescent psychology and development, drug and alcohol abuse, health/nutrition/fitness, learning disabilities, literature, school law, science and technology, social sciences or sports/athletic training.

**JSTOR**
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. But there is also a small, growing collection in the sciences. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article. JSTOR contains 47 journals for the field of education.

**Teacher Reference Center** (EBSCO)
Provides indexing and abstracts for over 280 of the most popular teacher and administrator trade journals to assist professional educators.
K-12 Resources for Students

*Note: To find these resources, please see the K-12 section of the library databases Web page.

**EBSCO Animals** (EBSCO)
This collection provides in-depth information on a variety of topics relating to animals. The database consists of indexing, abstracts, and full text records describing the nature and habitat of familiar animals. *Note: To get to EBSCO Animals, look under the General category on the list of Library databases for Academic Search Complete. Enter that database. Once inside, you’ll see a pull down menu towards the top of the page (right beneath the Find search box). Select EBSCO Animals from that list and deselect Academic Search Complete.

**Funk & Wagnalls New World Encyclopedia** (EBSCO)
*Note: To get to Funk & Wagnalls New World Encyclopedia, look under the General category on the list of Library databases for Academic Search Complete. Enter that database. Once inside, you’ll see a pull down menu towards the top of the page (right beneath the Find search box). Select Funk & Wagnalls New World Encyclopedia from that list and deselect Academic Search Complete.

**Academic OneFile Junior Edition** (Gale)
Designed for junior high and middle school students, it contains the titles most critical to their libraries and curriculum. It has access to a variety of indexed and full-text magazines, newspapers and reference books for information on current events, the arts, science, popular culture, health, people, government, history, sports and more. Coverage is from 2003 – 2006.

**Academic OneFile Kids** (Gale)
Gives younger students the tools they need to make sense of the content they access. User-friendly interfaces and ever-improving content that strives to make research not only a learning experience, but also fun.

**Academic OneFile Student Edition** (Gale)
Designed for secondary school students, and offers a quick and easy way to do classroom assignments and get answers to general reference questions. Student Edition is comprised of a variety of full-text sources that include the leading magazines, newspapers and reference books that librarians prefer and students enjoy.
**MAS Ultra-School Edition** (EBSCO)
Designed specifically for high school libraries, this database contains full text for more than 700 popular high school magazines. It also provides more than 500 full text pamphlets, more than 350 full text reference books, 84,774 biographies, 100,554 primary sources, and an Image Collection of 202,164 photos, maps & flags. Updated daily.

**Primary Search** (EBSCO)
Primary Search provides full text for nearly 70 popular magazines as well as indexing and abstracts for nearly 100 magazines for elementary school research. Full text articles are available from 1989 & indexing as far back as 1984. Each article is assigned a reading level indicator (Lexiles). Primary Search also contains the American Heritage Children’s Dictionary. The content is updated daily.

**Testing & Education Resource Center** (Gale)
This database helps prepare students for specialized tests for college, graduate school, the military, and trade school. It also includes preparatory tests for GED, GRE, and other educational tests. It provides assistance for writing admission's applications essays and resumes as well as preparatory exams such as entrance exams and licensing tests. *Note: To get to the Testing & Education Resource Center, look under the Reference Shelf category on the list of library databases page.*

See also the database called ‘What do I Read Next?’ (Gale) in the Literature section of the library databases.
Electronic Book Collections Available at Lake City Community College

**Digital Collection** (Greenwood Electronic Media)
The Greenwood Digital Collection is a sophisticated research platform comprised of reference, academic and general interest e-books. Titles come from Praeger, Greenwood Press, and Libraries Unlimited. This is not just a collection of PDF downloads, but complete texts — all searchable by keyword, subject, author, title, or any Boolean search method.

**Ebrary**
Ebrary is an interactive database containing E-books in many academic areas. The largest collections in this database are in the humanities, social & behavioral sciences and business topics. The collection currently contains more than 30,000 titles from more than 220 leading publishers. Unlike other E-book vendors, multiple patrons can view the same book at the same time. There is also a reference collection in this database that contains historical and biographical dictionaries, encyclopedias and atlases (including access to over 1,000 maps from Maps.com). Finally, a special searching tool within this database allows the user to highlight a word in the text and perform a search in other online library resources (catalog, databases, etc.) as well as the Internet.

**NetLibrary**
NetLibrary is a searchable collection of electronic resources on a wide variety of topics. This database contains more than 100,000 electronic books and hundreds of audio books from hundreds of global publishers.

**Virtual Reference Library** (Gale)
The Gale Reference Center Gold contains more than 85 reference sources including encyclopedias, almanacs, series and more. The interface allows searching across a single eBook or an entire eBook collection. You can access these resources online from the library or remotely 24/7.
General Databases Available at Lake City Community College

*Note: For databases that contain biographies, see our Biography category.

**Academic OneFile** (Gale)
Academic OneFile includes more than 4,200 full-text titles and five newspaper indexes with a total of over 8,000 titles. Coverage includes more than 20 years of back file from 1980 to present. It includes newswires, newspapers, general interest magazines, refereed academic journals, business publications, technology periodicals, and specialty titles in law, health care and computers.

**Academic Search Complete** (EBSCO)  **NEW!**
Academic Search Complete is a multidisciplined database containing information from a wide range of academic areas including general academic, general science, humanities, and social sciences. This database is an appropriate resource for students conducting undergraduate research. It contains full text for more than 4,500 periodicals as well as indexing and abstracts for over 8,000 journals (almost 6,700 peer-reviewed). EBSCO’s user-friendly interface also contains focused subject collections that can be searched together and includes areas such as business & economics, nursing & allied health, and psychology & sociology.

**ArticleFirst** via FirstSearch (OCLC)
ArticleFirst offers searching and browsing of articles and tables of contents from thousands of journals. It contains bibliographic citations that describe items listed on the table of contents pages of journals in science, technology, medicine, social science, business, the humanities, and popular culture. Each record describes one article, news story, letter, or other item. Includes 15.5+ million records from 15,000 journals from January 1990 to the present. Updated daily.

**E-Book Collections**
The library also subscribes to numerous electronic books. Please see the Electronic Books section of our Web site for a full list of our E-book collections.

**Electronic Collections** via FirstSearch (OCLC)
Access to over 4,800 journals in a variety of subject areas, all with full-image articles online. Articles from Electronic Collections Online journals are linked to corresponding citations in databases throughout the FirstSearch service. Articles from many journals may be purchased on a per-article use basis. Includes 1.8+ million records from 5,000+ journals. Updated daily.
**Expanded Academic ASAP** (Gale)
This database offers access to scholarly journals, magazines, and newspapers articles in the arts, humanities, social sciences, science, and technology. Full text & images are available.

**Funk & Wagnalls New Encyclopedia** (EBSCO)
This database contains over 25,000 records, covering a wide range of topics. Full text and images are available.

**General OneFile** (Gale)
Includes more than 4,200 full-text titles; five newspaper indexes -- a total of nearly 8,000 titles in all with more than 20 years of backfile coverage from 1980 to present. General OneFile makes approximately 25 million database records available with a single search query. It includes newswires from 89 wire services, newspapers, general interest magazines, refereed academic journals, business publications, technology periodicals, and specialty titles in law, health care and computers.

**General Reference Center Gold** (Gale)
Integrates a vast array of key business and general interest titles in a single database. It includes national news magazines, encyclopedias, core business journals, Knight-Ridder/Tribune News Service newspaper articles, more than 15 reference books, and more than 2,000 titles, including 1,200 in full text.
*Note: See our Reference Shelf section for more electronic reference works.*

**Informe Revistas en Espanol**
Created exclusively for Spanish-speaking users, this full-text electronic reference tool is the first system to provide indexing, images and full text of popular Hispanic magazines (not just translations). Also included is a thesaurus and interface that are uniquely designed for Spanish-speaking users. The terms and thesaurus are based on the expressions Spanish-speakers commonly use, allowing users to easily navigate through the database without experiencing inaccurate search terms.

**JSTOR**
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. But there is also a small, growing collection in the sciences. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article.
New York Times - Historical (ProQuest)

OmniFile Full Text Mega Edition (Wilson)
OmniFile provides access to citations, abstracts from over 3,500 publications and full text articles from over 1,750. Areas covered in this database include business, education, science, social sciences, art, and humanities.

PapersFirst (FirstSearch)
Covers every congress, symposium, exposition, workshop, and meeting added to The British Library Document Supply Centre's (BLDSC) vast proceedings collection since October 1993. The BLDSC is a document supplier for the OCLC Interlibrary Loan (ILL) service. Includes 5+ million records. Updated biweekly.

Readers' Guide Full Text (H.W. Wilson)
This database offers the ultimate in current events coverage, curriculum support, and quality periodicals research for students, educators, and library patrons.

Testing & Education Resource Center (Gale)
This database helps prepare students for specialized tests for college, graduate school, the military, and trade school. It also includes preparatory tests for GED, GRE, and other educational tests. It provides assistance for writing admission's applications essays and resumes as well as preparatory exams such as entrance exams and licensing tests. *Note: To get to the Testing & Education Resource Center, look under the Reference Shelf category on the list of library databases page.

WorldCat (FirstSearch)
The world's most comprehensive bibliography, with more than 55 million bibliographic records representing over 400 languages on materials ranging from stone tables to electronic books. WorldCat includes information from 2100 BC to the present with thousands of records containing evaluative content such as tables of contents, cover art, book summaries and notes about the authors. It uses the Library of Congress Subject Headings as its thesaurus. Users can also directly browse issues of periodicals in the ArticleFirst database from bibliographic records for these titles in WorldCat. WorldCat links to citation holdings that help users find these materials in their own libraries and through the Interlibrary Loan service. Updated daily.
Health & Medical Databases Available at Lake City Community College

**CINAHL Plus Full-Text (EBSCO)**
CINAHL with Full Text provides indexing for 1,835 journals from the fields of nursing and allied health. This database contains more than 1,000,000 records dating back to 1982. This database offers complete coverage of English-language nursing journals and publications from the National League for Nursing and the American Nurses Association. CINAHL with Full Text covers nursing, biomedicine, health sciences librarianship, alternative/complementary medicine, consumer health and 17 allied health disciplines.

**Health & Wellness Resource Center (Gale)**
This database allows access to full-text nursing and allied health journals, encyclopedias and other reference sources, as well as informational pamphlets. Traditional and alternative medical treatments are included. Many of the resources in this database are useful information tools for a lay audience.

**Health Reference Center Academic (Gale)**
An advanced interface to the full-text nursing and allied health journals found in the Health & Wellness Resource Center. Does not include reference sources or the Alternative Health suite of resources.

**Health Source: Consumer Edition (EBSCO)**
Provides information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine and general health. Health Source: Consumer Edition features searchable full text for nearly 160 journals including Consumer Reports on Health and Men’s Health, as well as abstracts and indexing for nearly 180 general health, nutrition and professional health care publications.

**Health Source: Nursing/Academic Edition (EBSCO)**
Provides nearly 450 scholarly full text journals focusing on many medical disciplines. It also features abstracts and indexing for nearly 850 journals. Updated daily.

**Medline (EBSCO & FirstSearch) [NEW!]**
Covers all areas of medicine, including clinical medicine, experimental medicine, dentistry, nursing, health services administration, nutrition, and more. Now includes the MeSH (medical subject headings) thesaurus. Includes 12+ million records from 9,500+ sources from 1965 to the present. Updated daily.
**Nursing and Allied Health Source** (ProQuest)  
Access articles and graphics from more than 270 nursing-related publications

**Physicians’ Desk Reference** (Medical Economics Co.)  
Searchable index of hundreds of drugs and medications. Search by product name, manufacturer, product category, indications, contraindications, side effects, or drug interactions. Includes product photos.

**PsycArticles** (EBSCO)  
This database is a definitive source of searchable, full text articles on current issues in psychology. The PsycARTICLES database covers general psychology and specialized, basic, applied, clinical and theoretical research in psychology. The database contains more than 25,000 searchable full text articles from 40 journals published by the APA and 9 from allied organizations. It contains all journal articles, letters to the editor and errata from each of the 49 journals. Coverage spans from 1988 to the present.

**Thomson Healthcare Series** (Gale)  
Access gateway to several Thomson Healthcare products including: MICROMEDEX Health Care, which includes information about drugs, toxicology, diseases, acute care, and alternative medicine. It also contains the CareNotes System, which provides patients with easy-to-understand information about all aspects of their care, medications, and health as well as the PDR Electronic Library.

**Virtual Reference Library** (Gale)  
It contains the following reference resources useful to the health sciences:  
- Gale Encyclopedia of Cancer (2nd ed., 2v, 2006)  
- Gale Encyclopedia of Genetic Disorders (2nd ed., 2v, 2006)  
- Gale Encyclopedia of Medicine (3rd ed., 5v, 2006)  
*Note: To find this database, look under the Reference Shelf category on the list of Library databases.*
Literature Databases Available at Lake City Community College

**Book Review Digest Plus** (H.W. Wilson)
A library classic for nearly 100 years, Book Review Digest indexes and provides excerpts of reviews from current English-language fiction and non-fiction. Now, Book Review Digest has become Book Review Digest Plus—dramatically expanding its scope (from its former base of 109 periodicals) with entries drawn from thousands of periodicals in other WilsonWeb databases.

**Essay & General Literature Index** (H.W. Wilson)
This resource offers precise access to nearly 65,000 essays contained in some 5,300 anthologies and collections published in the U.S., Canada, and Great Britain. Some 300 single and multi-author collections are indexed annually, plus some annuals and serials. Coverage spans the entire range of the humanities & social sciences, including literary works, art history, drama, & film.

**General Reference Center Gold** (Gale)
This database contains reference works useful to students doing research in literature. Such works include:
- American Reader: Words that Moved a Nation
- Benet’s Reader’s Encyclopedia of American Literature
- Benet’s Reader’s Encyclopedia of Literature
- Columbia Electronic Encyclopedia
- English Literature from 1785
- English Literature to 1785
- Masterpieces of World Literature
- Merriam-Webster’s Collegiate
- Dictionary, Tenth Edition
*Note: To find this resource, look under the General category on the list of library databases.

**Granger's World Poetry** (Columbia University Press)
The online edition is based on the traditional print resource known as Columbia Grangers Index to Poetry. This online reference tool helps users find poems by first line, last line, subject, and author. It contains the full text of nearly 200,000 poems. Granger’s also tells patrons which printed anthology contains a given poem.

**JSTOR**
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. But there is also a small, growing collection in the sciences. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article. JSTOR contains 67 journals for the areas of languages and literature.

**LitFinder** (Roth)
Includes access to three databases: Poem Finder, Story Finder, and Essay/Speech/Play Finder. Poem Finder is the largest, most comprehensive and most current poetry database available. It is international in scope and covers poetry from antiquity to the present. It is a one-stop resource for
locating over 4 1/2 million lines of poetry. Story Finder provides thousands of full-text short stories plus explanations, biographies, pictures & more. The database is updated constantly with classic and contemporary stories. Speeches represent the finest examples of recorded oratory, covering the milestones of history as well as everyday life. Over 1,000 complete plays cover the range of dramatic expression from many countries, including one-act plays, puppet plays, Harlequinades, comedies, tragedies, gothic, religious, romantic, historical, & children’s plays.

**Literary Reference Center (EBSCO)**

Literary Reference Center is a full text database that combines information from books, literary journals, major respected reference works as well as original content from EBSCO Publishing. This resource includes more than 10,000 plot summaries, synopses and work overviews; 75,000 articles of literary criticism; 130,000 author biographies; full text of more than 300 literary journals; 500,000 book reviews; 25,000 classic & contemporary poems; over 11,000 classic & contemporary short stories; full text of more than 7,500 classic novels; over 3,000 author interviews and over 1,000 images of key literary figures.

**Literature Resource Center (Gale)**

The Literature Resource Center contains full-text access to biographies, bibliographies, and critical analyses of authors from every age and literary discipline. This database includes access to popular Gale reference sources such as Contemporary Authors, Dictionary of Literary Biography, and Contemporary Literary Criticism.

**MagillOnLiterature Plus (EBSCO)**

MagillOnLiterature contains editorially reviewed critical analyses and brief plot summaries of the most studied works in the history of literature. MagillOnAuthors provides access to information on notable authors from 15 complete Salem Press sets containing a total of 62 volumes. The full database includes 12 volumes from Masterplots, 61 volumes from Masterplots II, the Cyclopedia of World Authors, the Cyclopedia of Literary Characters, 26 volumes of Magill’s Literary Annual, Magill’s Guide to Science Fiction and Fantasy Literature and Magill Book Reviews. Also includes images for many well-known authors, embedded hyperlinks to related author essays, and a literary glossary of over 800 terms.

**The Oxford English Dictionary (OED)**

The Oxford English Dictionary is the accepted authority on the evolution of the English language over the last millennium. It is an unsurpassed guide to the meaning, history, and pronunciation of over half a million words, both present and past. It traces the usage of words through 2.5 million quotations from a wide range of international English language sources. It also offers the best in etymological analysis, listings of variant spellings, and shows pronunciation using the International Phonetic Alphabet. *Note: To get to the OED, look under the Reference Shelf category on the list of Library databases.

**What do I Read Next? (Gale)**

A powerful readers' advisory tool offering the expertise of specialists, critics and librarians to find the best examples of internationally known fiction and nonfiction. It contains over 100,000 titles, more than 58,000 plot summaries, 562 awards titles, recommended reading lists and biographical information. Genres include inspirational, mystery, romance, science fiction, fantasy, horror, western and historical novels, general fiction, classic fiction and nonfiction.
Math Databases Available at Lake City Community College

**JSTOR**

JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. But there is also a small, growing collection in the sciences. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article. JSTOR contains 20 journals in the field of mathematics.

**Notes:**

- To get to JSTOR, look under the General or Science category on the list of Library databases.
- The General Science Full Text collection in the Wilson database also contains some mathematics information for students.
News & Current Events Databases

**Americas Newspapers** (NewsBank)  NEW!
This comprehensive national news resource offers the complete electronic editions of more than 600 U.S. newspapers, many of which are not available in any other library database. The New York Times, Wall Street Journal, and Washington Post are all included. America's Newspapers also includes many local Florida newspapers, and their Spanish-language versions (where available). Updated daily.

**CQ Researcher** (CQ Press)
CQ Researcher explores a single controversial topic each week. Issues cover a wide range of social, economic, political and environmental issues. 44 reports are produced each year. Reports include charts, graphs and sidebar articles.

**Florida Newspapers** (NewsBank)  NEW!
A subset of the larger NewsBank database that contains major Florida newspapers.

**Hoovers Premium** (Hoovers)
Hoovers offers in-depth financial information. It provides insight into companies and executives. Allows users to access a comprehensive company database, review key executive profiles, analyze complete industry coverage, build lists based on companies or executives, and view detailed company fact sheets with financials and other important information.

**Issues and Controversies** (Facts on File)
Offers a wealth of current topics research information, including pro/con discussions of hot issues, newspaper editorials, numerical snapshots of key topics, photos & graphics, and selected historical source documents.

**New York Times - Historical** (ProQuest)

**Opposing Viewpoints Resource Center** (Gale)
Opposing Viewpoints provides information on social issues. Students can search for viewpoint articles, contextual topic overviews, government and organizational statistics, court cases, profiles of government agencies and special interest groups, newspaper and magazine articles and more concerning social issues.

**Regional Business News** (EBSCO)
Regional Business News provides comprehensive full text for regional business publications (including titles from Crain Communications). This database has full text for more than 50 sources.
Science Databases Available at Lake City Community College

**JSTOR**
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. There is a small, growing collection of journals in the sciences. All articles are available in high quality PDF images and each record provides a stable URL that allows access to that article. JSTOR has a strong collection of journals in biology, zoology, ecology & evolutionary biology, botany & plant sciences and the history of science & technology. There are also a smaller collection of journals in the areas of general science, paleontology, aquatic sciences, and developmental & cell biology.

**Science Complete** (H.W. Wilson)
Science Complete allows simultaneous searching of three science collections contained within the Wilson Database:

- **Applied Science & Technology Full Text**: Periodical coverage includes 575 trade and industrial publications, journals issued by professional and technical societies, and specialized subject periodicals, as well as special issues such as buyers' guides, directories, and conference proceedings.
- **Biological & Agricultural Index Plus**: offers researchers convenient online access to the core literature of biology and agriculture—much of it from peer-reviewed journals—plus full text. Full text citations also link to PDF page images, featuring graphs, charts, diagrams, photos, and illustrations indispensable to science research.
- **General Science**: Periodical coverage includes 242 popular science magazines as well as professional journals. General Science Full Text also covers The New York Times Science Section (published weekly on Tuesday).

This collection includes full text and abstracts for both scientific & general interest.

**Science Resource Center** (Gale)
Science Resource Center is a multi-source database designed for high schools and community colleges. Resources available include science-related reference books, magazines, academic journals, newspaper articles, images, and web site links.

**Virtual Reference Library** (Gale)
It contains the following reference resources useful to the sciences:

- **Biology (4v, 2002)**: A comprehensive collection of articles on all aspects of biological science, including its history and issues. Includes articles on biology topics, as well as biology-related careers and important individuals.
- **World of Earth Science (2v encyclopedia, 2003)**
- **See also Beacham's Guide to the Endangered Species of North America listed under the heading Environment (6v, 2001)**

*Note: To find this database, look under the Reference Shelf category on the list of Library databases.*
Social Science Databases Available at Lake City Community College

**CQ Researcher** (CQ Press)
CQ Researcher explores a single controversial topic each week. Issues cover a wide range of social, economic, political and environmental issues. 44 reports are produced each year, including four expanded reports. Reports include charts, graphs and sidebar articles.

**Criminal Justice Periodicals Index** (ProQuest)
Covers a wide variety of criminal justice topics, including corrections administration, law enforcement, social work, industrial security, drug rehabilitation, and criminal & family law. Full-text and image coverage for about 50 journals.

**E-Book Collections**
The library also subscribes to numerous electronic books. Please see the Electronic Books section of our Web site for a full list of our E-book collections.

**General Reference Center Gold** (Gale)
This database contains reference works useful to students doing research in the areas of humanities & social science. *Note: To find this resource, look under the General category on the list of library databases.*

**History Reference Center** (EBSCO)
History Reference Center offers full text from more than 750 history reference books and encyclopedias, and cover-to-cover full text from nearly 60 history magazines. Further, the database contains 58,000 historical documents; 43,000 biographies of historical figures; more than 12,000 historical photos and maps; and 87 hours of historical film and video.

**Issues and Controversies** (Facts on File)
Offers a wealth of current topics research information, including pro/con discussions of hot issues, newspaper editorials, numerical snapshots of key topics, photos & graphics, and selected historical source documents.

**JSTOR**
JSTOR is an archive that holds the complete digitized runs of core scholarly journals, starting with the very first issue (with some dating as far back as the 1600’s) and includes all but the most recent years. JSTOR’s strongest subject collections are in social sciences and humanities. But there is also a small, growing collection in the sciences. All articles
are available in high quality PDF images and each record provides a stable URL that allows access to that article.

**Legal Periodicals & Books (H.W. Wilson)**
International coverage and access to scholarly articles, symposia, jurisdictional surveys, court decisions, legislation, books, book reviews, and more. This is an excellent resource for attorneys, educators, business people, law librarians, students, paralegals, and others involved with the law.

**Military & Government Collection (EBSCO)**
Designed to offer current news and information to all branches of the military, with a thorough collection of military titles, trade publications and newsweeklies. Includes cover-to-cover full text for nearly 350 titles.

**Opposing Viewpoints Resource Center (Gale)**
Opposing Viewpoints provides information on social issues. Students can search for viewpoint articles, contextual topic overviews, government and organizational statistics, court cases, profiles of government agencies and special interest groups, newspaper and magazine articles and more concerning social issues.

**PsycArticles (EBSCO)**
This database is a definitive source of searchable, full text articles on current issues in psychology. The PsycARTICLES database covers general psychology and specialized, basic, applied, clinical and theoretical research in psychology. The database contains more than 25,000 searchable full text articles from 40 journals published by the APA and 9 from allied organizations. It contains all journal articles, letters to the editor and errata from each of the 49 journals. Coverage spans from 1988 to the present.

Offers the ultimate in current events coverage, curriculum support, and quality periodicals research for students, educators, and library patrons.

**Social Sciences Full Text (H.W. Wilson)**
The social science collection contains journals from the fields of anthropology, economics, geography, international relations, law and criminology, political science, social work, & sociology. This database covers the latest concepts, trends, opinions, theories, and methods from both applied and theoretical aspects regarding the social sciences. Indexing generally begins in the early 1980’s and abstracting & full-text in the mid 1990’s.
